Cashmere?
The world's best cashmere comes from China and Mongolia, where the highest level of handwork is the foundation for our exceptional sweaters. In order to collect the cashmere, each goat is combed by hand every spring. The fleece is then collected and sorted by hand. In addition, the sweaters are usually knit on hand-operated machines. Converting cashmere into our luxurious garments is achieved only with extraordinary time and skill.

Since Louising introduced its first cashmere line in 2004, we have tried to present more quality life and style to our lovely dogs. We have designed numerous types of cashmere product like sweaters, blankets, a mommy hood, muffs, and gloves that all matched with each other. Cashmere is one of the finest fabrics for a season like winter. Louising desires to share the benefit of cashmere with your lovely dog(s).

SINCE 2004...
